

THE BADGER BEACON

Election nears for Badger Region Board

Throughout the Badger Beacon and our social media, you hear the term “The Board” referred to often. What is “The Board?” It’s the governing body of the Badger Region, its Board of Directors. And here’s your chance to be on it.

Each May 1, several seats on the board come up for election to a three- or four-year term. Any adult with a current membership may run for the specified seat, provided they meet the criteria listed — namely coming from the geographic area that the seat represents. This year’s available positions are Metro Milwaukee, At-Large and

Secretary. Even if you’re a parent who doesn’t yet have a membership but believe you could help, we encourage you to get a membership and submit your nomination.

For the **Metro Milwaukee** seat, the candidate must be located in that geographic area while the **At-Large** position can come from anywhere in the state of Wisconsin. It is a three-year term for both seats and the candidate must be a Badger Region Regular

Adult member in good standing at the time of the election.

They also must be willing to communicate with constituents on a regular basis, report to the board on requested matters, bring up areas of improvement, and also be willing to take a look at issues from the Region standpoint, which is a larger and more global view.

The Secretary seat is a four-year term and also encompasses a place on the Executive Committee; therefore an additional requirement of that position is also having served on

the board as an elected or appointed member prior to the election, in addition to the above-mentioned criteria.

So what does a board member actually do? Members attend four meetings a year and also consult and give opinions via email and surveys. Some members may choose to be a part of specific committees to help affect change, like our Tournament Committee did last year by making all of the improvements to the Badger Region Qualifier and Championships. All of our board members have voice and vote at the meetings while staff and advisory members have voice only. All of the past meeting minutes can be found here on our website, along with the Region by-laws: <http://badgervolleyball.org/by-laws/>

If this sounds like something you’re interested in, please complete the Badger Region Board of Directors Election Nomination form and send it to Jennifer Armson-Dyer at jarmsondyer@badgervolleyball.org by noon on Friday, April 28.

The slate of nominees and the link for voting will be set out via email to all current regular adult members on Monday, May 1, and voting will close on Wednesday, May 10. The election winners will be announced in the Badger Beacon on Thursday, May 11.

Contact the Region office with any questions you may have about the elections, candidates or the Board. We hope you or someone you know will consider running!

Looking back at the 2017 Region Championships

The 2017 Badger Region Championships (#BRChamps2017) was bigger and better than ever and was a huge success.

To re-cap, we had:

- * 119 juniors teams April 1-2.
- * 143 juniors teams March 25-26
- * 214 juniors teams March 18-19 (of which 68 were boys teams)

We introduced a third division. We capped the Open and Club divisions at 16 and 32 teams, respectively. We played with new formatting. We kept everyone under one roof.

We gained 197 followers on

Instagram and 166 followers on Facebook, and our filter was used 7,190 times and viewed 230,000 times on Snapchat. And our #BRChamps2017 on Facebook, Twitter and Instagram was very popular, too!

On March 17 and March 24, we had 204 athletes come through trying out for the three different Badger Region High Performance teams that the Region is offering this season.

Throughout the various weekends, we had 15 adult 6’s teams compete on April 2 in their own Badger Region Championships, and we also had 16 adult co-ed 4’s teams compete on Friday, March 24.

Needless to say, it was an amazing team effort between club directors, coaches, players, parents, officials, athletic trainers, Badger Region staff, heavy duty

crews at the Wisconsin Center, Visit Milwaukee, and many others.

We hope that you enjoyed the event, the competition and your experience at the 2017 Badger Region Championships. If you want, don’t hesitate to share your thoughts with us.

Again, THANK YOU for supporting Badger Region and growing the sport of volleyball in the state of Wisconsin!

Badger Region Staff,

Region Championships has something for all

The Badger Beacon asks each board member to submit an article for publication twice per year to let members know what they envision as best practices for the organization. This week's column is from Badger Region At-Large Board Member Kelly Lehman.

With the conclusion of another year of the Badger Region Championships, I was asked to give some feedback on the tournament, but from what perspective do the readers of this article want it to be reflective of? My perspective can be as a Badger Region Board Member, junior club director, coach, official, or as a parent? The Badger Region Championships is a tournament that wears many hats and fills many voids for the volleyball community in Wisconsin.

Kelly Lehman

The Championships are a great tournament for our girls, boys, and adult teams from the entire state. We get to see teams/clubs at the Badger Region Championships from the far reaches of the state that we don't get to see compete anywhere else in our

seasons, and at the same time we get to see our friends/colleagues/classmates from nearby clubs that we have played with/against before.

For many regional teams the Badger Region Championships is the biggest tournament of the year for them. It may be an overnight travel tournament or possibly it is the finale of a four month club season and for these teams the Championships is the tournament that hopefully will be talked about as the highlight to the season.

For our state's national teams that are more used to traveling and multi-day events, it can be a somewhat local event and a good mid-season test to see how they are stacking up with other Wisconsin clubs/teams that they will continue to compete with and against over the next three months.

In our region we have competitive teams at all the different ages and levels of experience, so with the tournament now offering two or three divisions in many age

groups, it gives most of our teams a chance to experience success at the Championships regardless if they are a young regional team or an experienced national team.

The Badger Region Championships also provides a great venue and opportunity for the state's High Performance programs to have their tryouts, by running the evaluation practices on the Friday nights prior to the start of the tournament weekend players have the opportunity to be coached by some great coaches and for those selected an opportunity to represent our state nationally at the summer's HP championships.

The Championships are a great environment to see how the progress of our players and teams are coming, but also for our Region's officials it serves as both weekends to renew friendships with colleagues and also to get training and evaluation to see how we as refs are progressing and advancing within our field. Our Region has done a good job of improving the overall level of our officials in

the past few years and continues to strive to improve mechanically and technically with the men/women in the official's shirts/navy pants/white shoes.

My final perspective of the Badger Region Championships comes as a parent. The parents are the backbone of club volleyball in our Region and from this perspective the Championships are a local tournament at a great venue that provides not only a good volleyball environment, but also a weekend in Milwaukee to enjoy all the city has to offer such as a Bucks game, a trip to the museum or theater, or at least a meal at one of its great restaurants.

So hopefully you have some fond memories, as I do, from the Badger Region Championships of this past year and possibly even of years gone past.

I know I have a lot of them from over the years and in many different roles that I have been fortunate enough to be in, and I'm also looking forward to more great memories to come in years ahead.

New program gives coaches more training

“The best way to learn is through a good mentor.”

Over the next few years, the Badger Region will help deliver information to coaching mentors throughout the region, to help the next generation of coaches get better, faster. We want to help place our experienced coaches in a position to share their knowledge, see new coaches in action, and guide coaches toward proven methods.

The region has five FREE mentor-training clinics to give away. At each two-hour clinic, all club coaches participate, while three coaches are trained to be mentors by an Advisor Coach. We have done a good portion of the work for the new mentors.

In 2015, I AM Volleyball Club was the first club to take part as

a guinea pig in the 3C program. According to Master Coach BJ LeRoy, who is helping write the manual for the 3C program, “The I AM folks were excellent. They wanted all the tips and critiques they could get and were happy to have us there. We all learned some new things last night.”

Mentor information comes from the latest High Performance clinics, and other USA Volleyball Education resources that are hard to attend in person. Please consider claiming a clinic just as the season starts to get underway.

Contact BJ LeRoy (4bjleroy@gmail.com) or the Badger Region Office for more information. For the full 3C website being started by the Region, go to: <http://badgervolleyball.org/coaches-coaching-coaches/>

Region sending 10 teams to G18s Championships

It’s mid-April and we are talking about National Championships? Are you sure we have the right month?

That we do.

Beginning in 2016, USA Volleyball moved its Girls 18-and-under National Championships to the spring to allow that athletes (most of them graduating seniors in high school) the opportunity to enjoy the last few months of spring and summer before heading off to college.

Last year’s event was hosted in Milwaukee and partially organized by the Badger Region. This year, the event has gotten so large (already) that it was moved to Dallas, Texas, where teams will compete for national titles in the Open, USA, National, American

and Patriot Divisions.

Teams from the Badger Region who are listed as attending on the USA Volleyball website include:

- * Open: Milwaukee Sting 18-Gold
 - * National: WVA 18-Black
 - * American: Capital 18 Adidas, Southport 18-National
 - * Patriot: FC Elite 18 Navy, Milwaukee Sting 18-Black, Wisconsin Premier 18-Jake, WVA 18-Red, Southwest G18-1 and Motion 18 Blue.
- Good luck to all the Badger Region teams!

Take a seat and learn from sitting volleyball

By BJ Le Roy

Badger Region Education Chair

Hopefully you've heard of the USA's gold medal winning sitting team. After a few tough losses in Paralympic finals, we were able to break the trend and grab the gold in Rio from China, who had never lost a Paralympic match.

It's inspiring for sure.

Let's be careful to not mentally pat these athletes on the head and say, "How nice." They're quite serious athletes, and we have a lot to learn from them, even in our "standing" gyms.

During the High Performance coach's clinic at the Olympic Training Center this February, the sitting athletes were on hand and were treated in the same manner as our star standing players. We heard panel discussions and held small-group sessions to get their insights. One of the more interesting comments; when asked about teammate relationships, one athlete said she wouldn't be friends with them outside of volleyball. Their job wasn't to be friends — it was to compete.

In a short car ride with their coach, Bill Hamiter, he explained the gold medal win. During video breakdown of China, they noticed a trend by the big Chinese hitter. Bill was sure they could exploit it, and...he didn't, during pool play. Left it in his pocket. He explained that every time the US had found some weakness and used it, China came back, sometimes within hours, with a solution. So despite practicing the new strategy, they waited. And it paid off in the lopsided final. It's a move that may have placed him in the Volleyball Hall of Fame.

While we see a lot of Michael Phelps and the fanfare he receives, I think ceremonies like this one are far more common for athletes coming home after the Games. On a USA Volleyball office tour, about 10 of us walked with the coaches and a few athletes to the executive conference room, called the Gold Medal Room. It's full of high-tech video gear for worldwide conferencing, as the U.S. is a leader in the volleyball world. The only pictures on the wall are gold medal winners

Setters Alexis Shifflett and Kaleo Kanahale stand near Head Coach Bill Hamiter, team leader Michelle Gooddall and Asst. Coach Laz Beltran.

from the US...Karch and Misty and Kerri and others, one picture for each gold medal. It took the sitting players about 30 seconds to realize their picture was already hanging with all the other greats.

While they hugged and laughed and pointed out their parents in the photo, standing behind them while on the podium, I thought how cool to see this "ceremony." The coaches were moved to tears. So were a few observers.

What can standing teams learn?

One of my favorite non-specific coaching slogans is "Move your feet!" You hear it when a coach gets frustrated with players who don't go for the ball, or take a ball outside the midline. "Move your feet" means nothing to a sitting player, nor does "Pass with your legs." Yet they pass and hit with deadly accuracy, as did this international level youth from Brazil during the Para-Pan Am games last month.

Can you do this in your gym? Of course. Will you improve your volleyball skills? Definitely. The easiest way is to use a ribbon or rope between two poles, without the standard net. There are only six major rule changes;

1. Smaller court.
2. Lower net.
3. No foot fault at the center line or end line.
4. You can block the serve.
5. You must play the ball with one "cheek" on the ground.
6. There can be a "held" ball if two opposing blockers pin the ball between their hands.

players describe what it's like to compete at an international level, balance their lives as athletes and "regular" people, and live in a world built mainly for the able-bodied. Episodes are short, entertaining, insightful and easy to listen to.

Last plea; we need help recruiting more players for the national program. Search your friends, schools, families and other organizations for potential sitting players. You can find the disability requirements here; www.disabledsportsUSA.org/sport/volleyball/.

Perspective players can contact the Region office for more information. Kaleo Kanahale, pictured here, was on the national team at age 16, winning a silver medal in London, while also playing on her (standing) high school team. At 20 she was the starting setter on a gold-medal winning team.

It's never too early.

How to handle protests; NCAA line judges wanted

By **Jim Momsen**

Badger Region Ref Chair

The final weekend of the 2017 Badger Region Championships is in the books! It was a great wrap-up to an exciting tournament! Thanks to the Badger Region Staff for assembling and delivering a great experience!!

Advancement

During the last weekend of Championships, we had additional referees advance their certifications. Congratulations to the following:

Regional Referee:

- Rick Jones
- Sarah Palmer

Provisional Referee:

- Kasia Adamicki
- Steve Bartow
- Randy Dahman
- Connor Muff
- Stacy Reinke
- Sharon Terry

Provisional Plus Official:

- Jerry Schewe

I look forward to working with all of our officials in the future to help them improve and provide the best experience for our teams and spectators.

Situations and rulings

Over the past two weeks, we have had a few protest situations. Here is a summary of the situations and rulings.

* Wrong Player on the Court

During a match, it was discovered that there was a wrong player on the court (this actually happened at a couple of different tournaments).

In both cases, the referees handled the situation correctly, but the coaches of both teams involved protested that they should not be penalized by removal of points, or that the other team should also have their points removed back to the time of the illegal player entering the match.

Rule 7.3.5.4 states, "Where a player is found to be on the court but he/she is not registered on the score sheet list of players, the opponent's points remain valid, and in addition they gain a point and service. The team at fault will

lose all points and/or sets (0:25, if necessary) gained from the moment the non-registered player entered the court, and will have to submit a revised line-up sheet and send a new registered player into the court, in the position of the non-registered player."

Ruling: In the first case, two points were removed from the offending team's score. In the second case, six points were removed from the offending team's score.

* Lineup changes

In another situation, the referee noticed the coach was attempting to change the team's lineup after the lineup had been submitted to the scorer, but before the set had started. The coach was informed that this was not allowed. The coach responded that a player had blood on his jersey and that they were trying to rearrange the lineup to account for that.

Rule 7.3.4 states, "Once the lineup has been submitted to the referee or scorer, no change in line-up may be authorized without a regular substitution."

Ruling: The players were placed on the court according to the submitted lineup (Rule 7.3.5.1), and, because the team did not have a spare jersey, the player with the bloodied jersey was substituted for (Rule 7.3.5.3).

Call to action for the fall!

Now that the USAV season is coming to a close, and your son or daughter may not be participating again until 2018, are you thinking about getting and/or staying involved in volleyball?

As you may be aware, fall is the women's college season!

We are experiencing an increasing demand for officials in Wisconsin and northern Illinois, especially for line judges! More and more schools and conferences want professionally trained and certified line judges working their matches.

Opportunities are available at the Junior College, NCAA Division III, and NCAA Division I levels. These are paid positions — the pay typically depends on

FROM THE
REF STAND

the conference and level of play — and is a great way to test out the waters of officiating.

Many of our referees started their college careers by starting as a line judge. Through training and mentoring, they have advanced to line judging and refereeing some of the best conferences in the country. Some have even line judged international matches. We also have many line judges who only line judge at the college level.

If you are interested in this opportunity, please send me an email and include your name, phone number, and the city where you reside. I'll put you on the list of interested parties. Our training will begin in August.

More NCAA volleyball ...

This Saturday, April 15, you have two opportunities to observe some high-level Women's NCAA Division I spring matches!!

At 1:00pm, the Minnesota Golden Gophers (2016 Final Four) will take on the University of Wisconsin-Milwaukee Panthers at the Milwaukee Sting Center (located at N54 W13904 Northpark Dr. Menomonee Falls, WI 53051).

At 6:30 p.m., the Wisconsin Badgers (2016 Elite Eight) take on the UW-Green Bay Phoenix at the Field House in Madison (located at 1450 Monroe St, Madison, WI 53711). Admission is free.

Questions or comments?

If you have questions about rules, situations, or other subject matter that you would like discussed in this column, please send your items to Badger Beacon Editor Brian Sharkey (Brian@BadgerVolleyball.org).

As always, thanks to everyone for your efforts in helping to make volleyball better for everyone!

SUMMER SAND VB OPPORTUNITIES

Limited Availability!

Calling all Freshman to Seniors volleyball players to get their team together for our competitive, and fun, 4 on 4 sand volleyball tournament. Space is limited so sign up today!

Most popular!

Our Summer Sand Camp is the perfect combo of fun and cross training while forcing good ball control. Playing in sand improves physical strength, player's vertical and makes one a better defensive player since the ball is touched on almost every play. Sun, great music, excellent coaching...makes for a fantastic summer experience.

INDOOR VB OPPORTUNITIES

Join us for
FALL TUNE-UPS
too

Must do!

Strategically timed, we work to increase player's chance of making the high school volleyball team. We raise player's indoor game AND challenge her to become stronger not just physically but mentally to get ready for the indoor season. We work on correcting indoor bad habits and strengthening the good ones.

For those new
to the game too!

This fun Fall Indoor camp is for 2nd grade to 8th grade girls and boys. Whether new to the game or wanting to improve current skills, our patient and amazing coaches will help teach the game, its strategy and push players to advance to a new level.

For more camp details and to sign up, please go to:
